RIPit® Computer Corporation and AlphaGraphics Inc.® Sign Agreement

RIPit® Computer Corporation announces an agreement with AlphaGraphics, Inc. to provide complete Direct-To-Plate Systems to new and existing AlphaGraphics Franchise printshops.

RIPit has been a source for digital imagesetting for years but its new Digital SpeedSetter® & Adobe® certified CPSI Software RIP (OpenRIP®) offer AlphaGraphics Franchise printshops uncompromising speed, quality, and price performance. AlphaGraphics Inc. came to the conclusion that RIPit's Direct-to-Plate System was the best choice for quality and affordability in their franchise print shops. The System is easy to use, easy to maintain, and is installed and trained by a factory technician. Additionally, RIPit provides a manual, an interactive multimedia CD, web site downloads and on-line support.

One of the many franchise owners that is already using the product had this to say about RIPit's Direct-to-Plate Solutions, "This product is an affordable solution for entering the Direct-to-Plate arena. All jobs are now output in-house, generating additional revenues with unsurpassed quality".

The marketplace is heading towards the Computer to Plate solution. RIPit's Direct-to-Plate System eliminates camera work, stripping, and the need to send computer artwork to a service bureau. The RIPit Direct-to-Plate System is quickly becoming a popular solution in new and established AlphaGraphics Inc. locations throughout the world for the production of digital printing plates.

Mike Dye, Director of Training and Technology at AlphaGraphics, Inc. commented, "RIPit's Direct-to-Plate Complete Solution Package can easily pay for itself by reducing material usage, and service bureau costs while providing high quality printed products to our customers. We believe that this package is ideally suited for both new and existing locations. RIPit's Direct-to-Plate system is highly recommend to all our franchises."
